

## Electronic Patient Reported Outcome (ePRO)

Easily capture data directly from study participants with an intuitive ePRO solution

Viedoc ePRO (electronic Patient Reported Outcome) streamlines data collection directly from study participants. Our web-based interface works seamlessly on any phone, tablet, or computer, allowing subjects to use their own personal devices. Study data is collected and stored securely and never retained on participants' devices. Extending the power of Viedoc EDC, our intuitive, user-centric approach makes it easy to keep subjects engaged and capture the data needed to support your study.

### Licensing overview

Viedoc ePRO enhances our intuitive EDC platform by integrating a user-friendly and easily manageable data collection solution.

### Features

- **BYOD (Bring Your Own Device) approach**  
A web-based interface allowing for device-independent access for all study subjects.
- **A fully integrated ePRO solution**  
A solution utilizing the same data storage as Viedoc Clinic.
- **Efficient user and site-centric workflows**  
Streamlined patient workflow, allowing a combination of site visits and home assessments conducted by the subject.
- **Configurable reminders**  
Configurable reminders can be sent through email or SMS to participants.
- **Intuitive UI**  
The user interface designed with study subjects in mind.
- **Multi-language support**  
Nearly 50 languages are available to include patients across the world.

### What's in it for you?

- **Improve data quality**  
Avoid transcription errors and multiple points of failure by having participants directly enter study information.
- **Secure, compliant data capture**  
Study data is delivered directly to Viedoc EDC, ensuring no data is stored on participants' devices.
- **Simplify management**  
Save costs and time by eliminating hardware distribution and maintenance.
