

Record Sharing Solution

Streamline document and asset sharing with clinical personnel and study participants

Viedoc Record Sharing enables our eClinical suite users to share study data with any other authorized users. Working within our comprehensive platform, this solution makes it quick and easy to share not only documents, but images, videos, reports, and more. Record sharing can also improve participant adherence through increased engagement and incentives. Sharing capability is included in the suite at no additional charge but requires the use of Viedoc's eTMF, EDC, and ePRO solutions.

Licensing overview

Effortlessly share study-related records with authorized users within our ecosystem.

Features

- **Uncomplicated record sharing within Viedoc**
Sharing of eTMF records with the study personnel and/or study participants.
- **Instant record access on Viedoc ePRO and EDC**
Instantly accessible eTMF records, shared with Viedoc Me and Viedoc Clinic users.
- **Functionality to improve subject adherence**
Easy-to-use interface for sharing gift certificates, vouchers, and other incentives with study subjects.
- **Cost and time efficiency**
Reduced need for paper records and manual handling of records and incentive materials.

What's in it for you?

- **Engage study participants**
Motivate participants to follow through on your study's protocols by enabling a range of incentive programs.
- **Collaborate securely**
Staying within the Viedoc ecosystem ensures safe record transfers to and from authorized users.
- **Provide a comprehensive view**
Enable prompt, streamlined sharing of images, videos, reports, and other documents to ensure users get the complete story.
